HI!

I'm a very passionate, entrepreneurial person whose love for developing software was born from my passion for building and customizing automobiles. This love, has lead me to a dedicated life of enterprise software architecture and development for some of the biggest companies in the world. Just like the cars I've built, I love how the web, mobile and IoT applications are connecting our world together while advancing our society. Even better I love to design, build and ship them all while teaching others our craft.

TECH LOVE

node.js, javascript, c#, vb, c++, .net, html, css, sass, less, hapi, express, react, nativescript, swift, xcode, atom, sublime, visual studio, macos, particle, arduino, finalcut pro, adobe illustrator, adobe indesign, autodesk fusion, docker, google apps, omni suite, amazon's aws, google's cloud, azure, digital ocean, joyent

EXPERIENCES

Sep 2016 - Current
**Co-Founder, Co-CEO
TANGIBLE**

As Co-CEO we managed 6 employees and a 1.2m dollar SaaS business providing one-click deployment, monitoring, auto scaling, and hosting to 40k websites across 3 cloud providers, globally.

July 2010 - Current
**FOUNDER, CEO
THAT CONFERENCE**

I founded That Conference as a 501(c)(3) to create the best development community in the midwest. After 6 years, we're the largest family friendly tech conference in the US seeing over 1600 people yearly. That Conference costs roughly 400k a year to produce.

May 2014 - Jan 2017
**Director
TELERIK / PROGRESS**

Joining as a Sr. Product Manager I quickly became the Director of Product Management running 4 separate developer products (Test Studio, Rollbase, Fiddler and Modulus) responsible for 10m dollars in revenue.

July 2005 - May 2014
**Sr. Program Manager
MICROSOFT**

Consultant, Evangelist, Program Manager, I achieved top honors at Microsoft. As a Sr. Program Manager I helped Microsoft's top ISVs design and ship their mission critical mobile and cloud apps while enhancing our products feature sets.

July 1998 - July 2005
**Senior Architect
ALLSTATE**

I helped lead the design, architecture, build and ship of Allstate's mission critical websites; buy.allstate.com, accessallstate.com, common services, and the core architecture framework for all new software development.

EDUCATION

1994 - 1998
Western Illinois University

BACHEOR OF INFORMATION TECHNOLOGY
Information Technology is a cross between Computer Science and Business Management.
Phi Kappa Theta Alumni
